Professional Summary

Data Analyst with expertise in data governance, stewardship, master data management, and data profiling, ensuring accuracy, compliance, and actionable insights. Skilled in SQL, Power BI, and cloud analytics, with a proven track record in data validation, quality assurance, and process optimization. Experienced in collaborating with cross-functional teams to streamline workflows and support strategic decision-making through clear, audit-ready reporting.

Work Experience

Data Associate - Amazon | Aug 2024 - Present

- Conducted data validation, verification, and profiling of Alexa model outputs across structured datasets, ensuring accuracy and relevance in key fields.
- Evaluated LLM-generated responses using defined metrics, contributing to improved model precision and reduced defect rates.
- Analyzed regression and stress test data to evaluate model resilience and identify performance gaps.
- Collaborated with data science and QA teams to refine evaluation pipelines and enhance the quality of generative AI systems.
- Utilized SQL and Excel to track validation metrics, generate reports, and assist internal audits.
- Optimized data labelling and quality check procedures to improve operational efficiency.

Customer Service Associate / Claims Specialist - Amazon | Jun 2023 – Mar 2024

- Delivered real-time chat support for UK customers, resolving product, account, and service queries with high efficiency and customer satisfaction.
- Provided technical assistance for Prime Video and Amazon Devices, troubleshooting setup, subscription, and connectivity issues across high-volume cases.
- Investigated A-to-Z customer claims by verifying transaction details and applying claims management and compliance practices to identify potential fraud and enforce policy standards.
- Maintained detailed case documentation to ensure compliance with quality standards, while applying problem-solving and empathy to improve customer experience and reduce escalations.

Education

Bachelor of Technology – Computer Science and Engineering

DMSSVH College of Engineering | Machilipatnam | 2013-2017

Skills

Data Management & Governance: Data Governance, Master Data Management (MDM), Data Stewardship, Data Profiling, Data Validation & Verification, Data Quality Metrics, ETL/ELT processes

Analytical & Business Intelligence: SQL (Oracle, MySQL, SQL Server), Power BI, DAX, R (basic), Exploratory Data Analysis (EDA), Dashboards, Reporting, Trend Analysis

Operational Excellence: Workflow Optimization, Process Improvement, Process Automation, Compliance Monitoring, Operational Risk Analysis, Documentation, Cross-functional Collaboration, Technical Troubleshooting, Claims Management

Tools & Platforms: Power BI Service, SQL Management Studio, Google Looker Studio, Google Sheets, Microsoft Office Suite, Amazon Internal Tools, Cloud Analytics (BigQuery, AWS QuickSight)

Core Professional Skills: Problem Solving, Analytical Storytelling, Empathetic Communication, Stakeholder Engagement, Time Management, Adaptability

Certifications & Projects

Google Data Analytics Capstone Project

- Applied SQL with Google Cloud BigQuery, R, and spreadsheets for data cleaning, analysis, and visualization.
- Created dashboards and presented insights using real-world datasets to support data-driven decision-making.
- Designed and published dynamic dashboards using Google Looker Studio, integrating multiple data sources to visualize performance metrics and support operational reporting.

Microsoft Certified: Power BI Data Analyst Associate

- Built interactive dashboards using Power BI Service and DAX functions to visualize key performance indicators and operational metrics.
- Delivered actionable insights through clear, accessible reports that supported strategic decision-making and process optimization
